

I vehemently urge the FCC to retain the NJ "Do NOT Call" law. It is through substantive laws such as this that the privacy and of an individual or family can be protected. In addition, the stress and interruption that telemarketers cause to individual/family life must be stopped and this law is the only way to do that. Non-profit organizations already impact the public in this way and adding any more is a crime. I would make this law even more substantial by cutting back even on those.
